## **RECYCLING FACTS - TRUE OR FALSE?**

- Plastic is made from oil.
- Sources of oil were formed between 10 million and 600 million years ago when the remains of plants and animals such as plankton decomposed on ancient seafloors and lake bodies.
- Very heavy machines make natural gas, coal and oil.
- Natural gas, coal and oil are fossil fuels.
- There are 9 categories of plastic and most plastic can be recycled.
- When plastic containers are recycled, the plastic can be used to make new products, conserving natural resources and energy.
- If you leave plastic in the sun for 1 month, it will recycle itself.
- Products like fibers for carpet and clothing can be made from recycled soda bottles.
- Plastic grocery bags can be recycled to make plastic lumber for building playgrounds.
- Burning plastic is good for the environment.
